Mac OSX Download Instructions

1. Download the Continuata Connect app *(via the download link in your email)*

2. Install the Continuata Connect software

3. Launch the Continuata Connect App

4. Copy and paste your unique serial code into the installer

5. Choose where you would like to install Gravity
   Please make sure there is enough free space on your drive (>20GB)

6. Click "Download" *(you will see a Gravity folder show up that is ~9.2GB)*

7. Open Kontakt 5 (Player), and click "add library"

8. Navigate to the "Gravity" directory and click "choose"

9. To authorize Gravity, click "activate"

10. When prompted by NI Service Center, enter the 25 digit serial #

If you don't have the Kontakt 5 Player, you can download it here:
http://www.native-instruments.com/en/products/komplete/synths-samplers/kontakt-5-player/

If you have further questions about installation, please contact us at:
support@heavyocity.com
