

Heavyocity Announces Release of **DAMAGE MACHINA**

NEW YORK, May 15, 2024 – Heavyocity Media announces the release of *Damage Machina*, an unconventional and inspiring percussion library, borne from the mechanical world. With over 720 unique playable sources and over 280 loops, housed in the Damage 2 engine, *Damage Machina* delivers the texture, grit, and character needed to craft distinctive, evocative grooves and beats. All of the content in *Damage Machina* is presented in two distinct instruments (Ensemble Designer and Loop Designer), each providing an easy-to-use and customizable workflow.

Heavyocity partnered with acclaimed sound designer, Robert Dudzic, known for his field recordings and percussive flare in the movie trailer and film industries. Dudzic's work can be heard across more than 250 trailer campaigns and in scores by composers like Hans Zimmer, Lorne Balfe, Jacob Shea, and more. His style, in combination with Heavyocity's expertise and careful curation, created a truly one-of-a-kind percussion library.

Chock-full of over 9,000 samples and 2.6 GB of clanks, clangs, and churns of industrial cogs, typewriters, steam engines, antique tractors, pinball machines, and countless other mechanical oddities, *Damage Machina* is a uniquely inspiring percussion tool designed for modern composers and producers.

"Meticulously recorded and expertly crafted, these visceral sounds are designed to inject chaotic, percussive energy into your tracks" said Dave Fraser, Co-Founder and Partner, Heavyocity. *"Damage Machina turns the rhythm of machinery into powerful and dynamic musical statements."*

For a limited time, Heavyocity is offering *Damage Machina* for \$119 (reg. \$149). In addition, owners of Damage or Damage 2 will get an additional \$20 off with registered serial. Offers end May 30, 2025.

As a “powered-by-Kontakt” instrument *Damage Machina* offers all playback and sound-shaping functionality through the full version of Kontakt 6 or the free Kontakt 6 Player.
