

Heavyocity Announces Release of Solo Textures

NEW YORK, March 7, 2024 – Heavyocity Media proudly introduces *Solo Textures*, a moving strings virtual instrument, and the latest addition to the critically-acclaimed NOVO Packs line. The intimacy of solo violin, viola, and cello has been captured and melded with Heavyocity's signature sound design, delivering an expressive and emotive interpretation that embodies the nuances of solo string performances, elevating them into the realm of modern scoring.

Solo Textures invites you into the heart of delicate solo violin, viola, and cello performances, meticulously captured at Heavyocity Studios in NYC. Featuring over 14 GB of unique, rhythmic elements, recorded with multiple dynamic layers, and multi-sampled for stunning realism and emotional depth, this virtual instrument captures the intricate nuances and dynamic range of solo string performances. With over 220 meticulously crafted snapshot presets, *Solo Textures* provides a diverse range of inspiring starting points that magnify the authentic voice of these exquisite instruments.

Composers can effortlessly build custom ensembles, unlocking the soulful resonance of these lush instruments. The solo performances capture the essence of clean, lyrical sound while showcasing the unique articulations crafted by the Heavyocity team. Inspired by the sound of modern chamber strings, these unique arrangements and textures expand the possibilities of what a solo performer can achieve. Each note resonates with rich movement and texture, making *Solo Textures* an ideal addition to your scoring toolkit.

"Solo Textures unlocks a world of moving and nuanced performances," said Ari Winters, Creative Director, Heavyocity. "From delicate rhythmic patterns to flowing combinations, this virtual instrument offers a rich palette for composers seeking solo strings' emotive depth in contemporary scoring."

For a limited time, Heavyocity is offering *Solo Textures* for \$119 (reg. \$149). In addition, owners of NOVO, FORZO, VENTO, or Symphonic Destruction will get an additional \$20 off with registered serial. Offers end March 18, 2024.

As a “powered-by-Kontakt” instrument *Solo Textures* offers all playback and sound-shaping functionality through the full version of Kontakt 7 or the free Kontakt 7 Player.
