

Mac OSX Download Instructions

1. Download the Continuata Connect app (*via the download link in your email*)
2. Install the Continuata Connect software
3. Launch the Continuata Connect App
4. Copy and paste your unique serial code into the installer
5. Choose where you would like to install Vocalise
Please make sure there is enough free space on your drive (>6GB)
6. Click "Download" (*you will see a GP02 Vocalise folder show up that is ~3.2 GB*)
7. Open Kontakt 5 (Player), and click "add library"
8. Navigate to the "GP02 Vocalise" directory and click "choose"
9. To authorize Vocalise, click "activate"
10. When prompted by NI Service Center, enter the 25 digit serial #

If you don't have the Kontakt 5 Player, you can download it here:

<http://www.native-instruments.com/en/products/komplete/synths-samplers/kontakt-5-player/>

If you have further questions about installation, please contact us at:
support@heavyocity.com

PC Download Instructions

Manual Download Instructions

1. Download the 6 files *(via the manual download link in your email)*
2. Un-compress the GP02V_Samples.part1.rar file.
(This will create a ~3.1GB "GP02 Vocalise" directory)
3. Un-compress the GP02V_Extras.rar file.
4. Un-compress the GP02V_Instruments_WM****.zip
(This will create a second "GP02 Vocalise" directory)
5. Move the contents of this second "GP02 Vocalise/Instruments" directory into the original directory
6. Open Kontakt 5 (Player), and click "add library"
7. Navigate to the "GP02 Vocalise" directory and click "choose"
8. To authorize Vocalise, click "activate"
9. When prompted by NI Service Center, enter the 25 digit serial #

If you don't have the Kontakt 5 Player, you can download it here:
